

**MINISTRY OF TRANSPORTATIONS -MOT's MARITIME
AFFAIRS DISCUSSES COOPERATION WITH RESEARCH
CENTER FOR INTERNATIONAL MARITIME LAW AND
PRACTICE (RCIMLP), 21st JUNE 2022**

Having the root agenda of promoting maritime tourism, trade, and prospects of a blue economy, the Research Center For International Maritime Law and Practice (RCIMLP) made its way to Qatar for mutual collaboration and cooperation. The higher officials of the Ministry of Transportation (Qatar) and the CEO of RCIMLP (Pakistan) have had an official meeting on Tuesday, 21st of June 2022, at the Ministry of Transport, Doha.

Qatar enjoys a dominant status in the world's maritime industry and consistently performs highly in international rankings. However, Pakistan's marine belt's location is crucial from a strategic perspective for trade and oil supply lines from the Persian Gulf. Due to its advantageous location, Pakistan has the chance to control important coastal corridors and routes across the Arabian Sea. As a result, if Pakistani and Qatari relations continue their current pattern of cooperation while upholding the notion of the domino effects of globalization, their alliance will bring benefits to the entire area.

In this regard, RCIMLP-Pakistan played a vital role by taking a valuable initiative to induce mutual partnership in the aspect of the blue economy and maritime industries of both the states. Ministry of Transport's Assistant Undersecretary of Maritime Transport Affairs, Dr. Saleh Bin Fetais Al-Marri, exchanged his views on the Maritime sector with the CEO Of the Research Center For International Maritime Law and Practice, Muslim Bin Aqeel. The motif of the discussion revolved around enhancing the cooperation to establish the Research Centers, Shipping Industries and Universities, and training camps regarding International Maritime Law and Security. Mr. Muslim Bin Aqeel pitched the idea of Pak-Qatar maritime trade, underlined the importance of maritime laws, and shed light on the significance of educational-cultural exchange programs.

The CEO-RCIMLP, Mr. Muslim Bin Aqeel believes that Pakistan presents a significant potential for Qatar to carry out its objectives for national renewal, and Pakistani authorities are ready to assist Qatari investment. Pakistan has a substantial opportunity to secure various sectors of the blue economy. Pakistan also has the potential to be a relevant region for Qatar in terms of observing its National Vision 2030 and anticipating the Islamic Republic of Pakistan's vital assistance in reaching goals for the growth of both countries.
